

Dave, Senior  
Exchange Server  
Administrator

## Dave is

Removing 8,375 errors,  
Correcting 5,715 warnings,  
Defragmenting 45 message stores,  
And increasing performance and  
stability on several Exchange servers

*in four different locations at once.*

# Get Your Life Back.

Dave is running GOexchange, the "Automated Maintenance Solution for Microsoft Exchange 5.5, 2000 and 2003." While he attends to more important things, GOexchange checks system db's for consistency, corrects errors and warnings, and improves system performance while reducing the average message store by 30-55%. To learn more, call us, send us an email, or visit our website.

## Exchange Server Performance

Before

100GB

After

62GB
